(54) Title: PROGNOSTIC AND DIAGNOSTIC MARKERS FOR CELL PROLIFERATIVE DISORDERS OF THE BREAST TISSUES

(57) Abstract: The present invention relates to prognostic and diagnostic markers for cell proliferative disorders of the breast tissues. The present invention therefore provides methods and nucleic acids for the analysis of biological samples for features associated with the development of breast cell proliferative disorders. Furthermore, the invention provides for prognosis of treatment effects relating to drug therapy, in particular hormonal/antihormonal therapy, chemotherapy and/or adjuvant therapy.
